

From the horse's mouth...

Elaine Tragett, Eventer

"Just four days into using the HAYGAIN® to steam his hay and the Flexineb™ on my horse and the symptoms of his allergy are totally gone! The difference is amazing and so quick... thank you!"

Sinead Halpin, Eventer

"We have used this product religiously leading up to the biggest four star in the world.

I can say, for the first time in two years, and at the biggest, fastest, longest track of his career Tate did not bleed."

Maureen Haggas, Racehorse Trainer

"We use the Flexineb™ on a regular basis and find it a very effective piece of equipment for horses with respiratory problems."

Richard Hepburn, Veterinarian, BVSc DipACVIM MS CertEM(IntMed) MRCVS ACVIM

"The most important aspects about Flexineb™ is the fact it is self-contained, very easy to use and tolerated brilliantly by horses so you're unlikely to get treatment failure with such a simple and effective product."
